

Ideation Phase

Brainstorm & Idea Prioritization

Date: 03 March 2026
Project Name: AI/ML Based Quotes Recommendation System

Step 1: Problem Selection

Selected Problem: Users cannot easily find emotionally relevant and personalized quotes.

Step 2: Brainstorm – Idea Listing & Grouping

- Emotion Detection using NLP
- Sentiment Analysis Model
- Content-Based Filtering
- Deep Learning (LSTM / BERT)
- User Feedback Learning Mechanism
- Category-Based Filtering
- Daily Quote Notifications
- Multilingual Support
- Quote Poster Generator

Step 3: Idea Prioritization

High Priority	Medium Priority	Future Scope
Emotion Detection	Multilingual Support	Reinforcement Learning
Personalized Engine	Daily Notifications	Voice-Based Interaction
Category Filtering	Quote Explanation	AI-Generated Quotes

Proposed System Flow Diagram

User Input (Text / Mood)
Emotion Detection Model (NLP)
Recommendation Engine (ML)

Personalized Quote Output
